

BIG HORN COUNTY SCHOOL DISTRICT NUMBER ONE  
Box 688  
Cowley, Wyoming 82420  
POLICIES AND REGULATIONS  
FILE: IHBF

**HOMEBOUND INSTRUCTIONS**

Big Horn County School District Number One will provide homebound instruction to children who miss school for more than one week due to an illness or injury that requires hospitalization or confinement to the home as verified by a medical authority.

The District will provide a qualified homebound teacher to help the homebound or hospitalized student keep up with his/her regular classes if and only if the child is physically incapable of attending schools but is still capable of profiting from a formal educational program.

A child may become a candidate for homebound instruction when he/she is hospitalized or homebound for more than one week of school due to illness or injury.

The parent or guardian of a student unable to attend school because of illness or injury may request in writing that the student receive homebound instruction. The request must be accompanied by certification from a physician that the student is unable to attend school because of a medical condition: an explanation of the condition, a statement that the student is in a condition to profit from homebound instruction; and an estimate of the length of time before the student can return to school. Such certification shall be made on Form IGBG-E.

The principal, upon receipt of the physicians report on the homebound child, will appoint a homebound certified teacher.

The homebound teacher will instruct the homebound student and consult with the homebound student's regular classroom teachers. The homebound teacher will be responsible to secure needed textbooks and other educational materials from the respective school; coordinate the instruction with course requirements in cooperation with the regular teachers; and to submit a periodic evaluation of the student's performance to the regular classroom teacher.
